PREFACE

The tables in this report classify the population of Newfoundland by religious denominations and sex, and form part of a series giving final population figures from the 1945 Census of Newfoundland. The first report in this series gave figures on the population of Newfoundland for all districts, towns and settlements without further classification except by sex, and included historical data to show the growth of Newfoundland's population from earlier census periods. A second report presented tables classifying the population by age groups and sex. Other tables to follow in the "PN" series of bulletins will show the population of Newfoundland according to such classifications as marital status, literacy, ethnic origin, schooling, birthplace, etc.

Tables 18 and 19, the first two tables of this report, are historical, and show the principal religious denominations (i.e. the numerically largest), firstly for Newfoundland as a whole at each census period from 1857 to 1945, inclusive, and secondly for the 25 census districts from 1921 to 1945. Tables 20 and 21 give the sex distribution at the 1945 Census, the former showing principal religions by sex for census districts, and the latter, detailed religious denominations by sex for Newfoundland as a whole. Tables 22 and 23 provide information on principal religions for individual towns and settlements, the first for the larger towns and settlements of 1,000 and over, and the second for all places regardless of size and arranged alphabetically by districts.

The reports in this series represent final tabulated results from the Census of Population, Agriculture and Fisheries, taken by the Newfoundland Government in 1945. These tabulations have been carried out in the Dominion Bureau of Statistics at the request of Newfoundland. Further reports are being released to show classifications of the population by occupations, industry, income, etc., as well as data relating to households and families, and summary compilations of the Census of Agriculture and Fisheries.
